

## Addon Slide Type Rotator

These rotators are designed and manufactured to suit need of rotating shells for circular seam welding. Precisely fabricated and Machined structure along with perfectly aligned system ensures smooth rotation of the shells. Distance between the turning rolls can be adjusted by sliding the wheel frame on the machined base.

All India Supply

### FEATURES

- » Precisely Machined base.
- » AC Motor With VFD Gives Step Less Variation Of Speed Over The Entire Range.
- » High Temperature Rubber Lining On The Roller For Perfect Grip.
- » Synchronised Drives Results In Minimised Screwing Effect.

### TECHNICAL SPECIFICATIONS

Model	Load Capacity (T)	Wheel Dia. (MM)	Work Piece Dia. (MM)	Wheel Width (MM)
Addon MT - 2	2	200	250-1200	100
Addon MT - 5	5	300	250-3000	100
Addon MT - 10	10	350	350-3000	120
Addon MT - 15	15	350	400-4000	130
Addon MT - 20	20	400	400-4000	130
Addon MT - 30	30	400	450-4500	150
Addon MT - 40	40	400	450-4800	150
Addon MT - 50	50	500	450-5000	200
Addon MT - 60	60	500	450-5200	250
No. Of Wheels - 4				
Wheel Speed - 0.8 - 0.16 Mtrs/Min				
Input Power - 3 Phase 380-440 Volts 50 Hz Supply				
Wheel Material - Rubber / Polyurethane + C.I. Steel
