

Automatic Welding Carriage Addon - K8SS

Addon Welding Carriages can be used for automatic welding joints type Fillet weld

All India Supply

FEATURES

- » Small Volume, Light Weight, Easy Handling and Installation
- » High performance magnet increases the reliability of profile welding and ensure the stability & smooth operation.
- » The magnet release lever can be easily operated.
- » It can be used in the horizontal fillet welding with wide range of welding speed control.
- » X-Y slides provided for finer adjustment of torch position.

TECHNICAL SPECIFICATIONS

Model	WTRYSTD
Net Weight	8 KG
Power Input	AC 220 V
Driving Mode	4 Wheel Chain Drive Motor
Traction Power	16 KG
Travelling Speed	0-780 mm
Tracking Mode	Guide Wheel Type
Height of Guide Wheel	3 Option
Adjustable Range of Welding Torch	Horizontal Angle 40-50, 40mm for Up/Down, 40mm for Right/Left
Torch Holder	Suitable for Straight OR angular Goose Neck Torch
Auto-Stop Function	Achieved by Two Limit Switches on Both Side
Dimension (L X W X H)	280 x 210 x 235 mm
